

W.A.ISINDU YUWANEKA WIJESINGHE

BSc in Information Technology Specializing in Information Technology(UG)

Aspiring Software Engineer passionate about building scalable apps and modern UIs. Currently pursuing a BSc in IT with hands-on experience in MERN stack and Android. Quick learner, open to any technology.

Projects

- **RMS Project | Retail Management System**

Built a full retail/POS learning system with ASP.NET Core 8 Web API backend and React + Redux Toolkit + RTK Query frontend.

ASP.NET | react.js(redux) | css | SSMS

Completed

- **CRM | Customer Relationship Management System**

Built an ASP.NET EF Core MVC learning project to manage customer profiles and order records with authentication, role-based access (Admin/Customer), and CRUD operations. Implemented validation rules, and dashboard metrics with charts.

ASP.NET | css | tailwind css | chart.js | SSMS

Completed

- **MotionChat | Realtime Support-agent chat platform**

Built a real-time online chat support system enabling seamless communication between customers and agents, with features like live messaging, session tracking, role-based access, and post-chat ratings — all through a clean, responsive interface.

mongo db | express.js | react.js | node.js

Completed

- **FinanceTracker | smart app for finance managing**

Developed an Android Finance Tracker app to monitor expenses and income, set financial goals, manage multiple currencies, and import/export data as JSON — all within a user-friendly and secure mobile interface.

dart | CMake | Swift | C | Flutter | C++

Completed

- **ShopCart | Grocery Logistic Management System**

Led the development of a Grocery Logistics System with real-time delivery management, OTP-secured shop owner access, and an intuitive dashboard to manage personnel and performance analytics.

mongo db | express.js | react.js | node.js | css

Completed
